

TCS BIOSCIENCES LTD, CHANGE NOTICE: CCI 139

To: Customers and Distributors of Selectrol

It is our intention to make the change listed below. The details of the change and the reason for it are given below.

Please acknowledge receipt of this notification and confirm your acceptance of the change by completing the section below and emailing a copy of the form to qc@tcsgroup.co.uk. Acceptance of the change is assumed if a response is not received within two weeks of issue of this notification.

If you have any difficulties or concerns accepting the change, please contact us immediately.

Product: MM71 *Candida guilliermondii* NCPF® 3099 / ATCC® 5276
MM72 *Candida lusitaniae* NCPF® 3954

Product codes: MM71-10 (10 disc) and MM72-10 (10 disc)

Proposed Change Date: From March 2025

Change Details:

MM71 and MM72 are now obsolete from the Selectrol product range.

Reason for Change:

A commercial decision has been made to remove these strains from our Selectrol product range due to very low sales.

A number of other *Candida* strains are available for sale within our Selectrol® range. Suitability for use as alternatives should be determined by the end user.

I understand and accept the changes proposed to the product given above.
