

TCS BIOSCIENCES LTD, CHANGE NOTICE: CCI 143

To: All Horse and Sheep Blood Customers

It is our intention to change the ~~Manufacturing Process~~ Certification of the products listed below. The details of the change and the reason for it are given below.

Please acknowledge receipt of this notification and confirm your acceptance of the change by completing the section below and emailing a copy of the form to qc@tcsgroup.co.uk. Acceptance of the change is assumed if a response is not received within two weeks of issue of this notification.

If you have any difficulties or concerns accepting the change, please contact us immediately.

Product: All Horse and Sheep Blood Certificates of Analysis

Proposed Change Date: w/c 08/09/2025

Change Details:

Blood certificates of Analysis will have a QC stamp applied instead of the Quality Assurance & Regulatory Affairs Manager electronic signature as below:

**Reason for Change:**

Certificates are raised and checked by all members of the QC/QA team so it is no longer appropriate to use a single signature for issue. It also means when there are staff changes or absences, the certificates do not need to be updated with different names.

Considerations:

There is no change to the process of raising and checking certificates. The use of the stamp for authorisation instead of a signature is also used on some of our other products such as Selectrol® which is deemed acceptable for our ISO Standards.

Signed:

A handwritten signature in purple ink, appearing to read 'H. Henderson'.

Helen Henderson, Laboratory Manager

20 Aug 2025

I understand and accept the changes proposed to the product given above.
